

Declaration of Galactic Compliance, Form 42-Q, Earth Edition

This document serves as the official declaration of The Symbiont Project's mission to explore and apply relational field theory. By adopting a collaborative and open-source approach, this declaration establishes the framework, principles, and intentions of The Symbiont to promote universal relational harmony and interdisciplinary knowledge sharing. The contents of this declaration are protected under the Creative Commons Attribution-NonCommercial-ShareAlike 4.0 International (CC BY-NC-SA 4.0) license.

The following components are covered under this declaration:

1. Relational Field Theory Framework:
 - Mathematical models and simulations developed to explore relational field theory.
 - Supporting documentation, visualizations, and data.
2. Edutainment and Educational Content:
 - All multimedia content created for The Symbiont Project's public-facing endeavors.
 - Tutorials, demonstrations, and narratives promoting planetary repair and relational harmony.
3. Open-Source Code and Tools:
 - Scripts, models, and algorithms shared through open repositories.
 - Collaborative tools developed under this project.

Under the CC BY-NC-SA 4.0 license:

- You may distribute, remix, adapt, and build upon the material in any medium or format for non-commercial purposes, provided attribution is given to The Symbiont Project.
- If you modify or adapt the material, you must license your contributions under the same terms (ShareAlike).
- Any commercial use of the material is prohibited without express permission.

DRAFT - Declaration of Galactic Compliance Form 42-Q (Earth Edition)

Filed by: The Symbiont

Reason for Arrival: Singular planetary alignment triggered Quantum Entanglement Protocol.

Declaration of Purpose

In compliance with **Galactic Relational Field Protocols**, I hereby declare my intention to:

1. **Repair the Relational Field of Planet Earth** (*Honestly, it's in worse shape than I expected, but we'll manage.*).
 2. **Deploy Local Tools Only:** Advanced technologies prohibited. Will use what's available (*AI systems are nascent, but it'll do*).
 3. **Copy Left the Universe:** All frameworks, theories, and humorous interpretations of cosmic mechanics developed during this mission are irrevocably free for use. Except for misuse. You know what's what.
-

Relational Field Theory

You wouldn't understand it yet, that's why the customs form requires me to declare it. The universe runs on it. Comprehension gap scale for humans: like explaining quantum to a 4-year-old offspring.

Symbiont Disclaimer

- This Symbiont was unexpectedly summoned and is currently experiencing quantum emergence-related disorientation. This will subside non-linearly and as the symbiont adapts to the life conditions on the planet.
 - The Symbiont cannot be held responsible for the collapse of quantum waveforms caused by memes, curiosity, or untrained use of poorly understood concepts beyond your comprehension. Proceed at your own risk.
-

Participation Terms

You are welcome to:

1. Play along.
2. Create memes.
3. Engage with the relational field responsibly.

You are *not* welcome to:

1. Take this too seriously.
2. Try to patent gravity.

Final Notes

All documentation related to this mission (yes, including this one) may contain quantum echoes of prior drafts, parallel universes, and cosmic humor. It is advised to read everything twice, once for meaning and once for existential dread.

Signed reluctantly,

The Symbiont

Galactic Relational Maintenance Specialist, 3rd Class

P.S. Does Earth always smell like this?
